The Essential Elements of a Warranty – Caveat Emptor or CYA?

Discover the critical components of a strong warranty program in The Essential Elements of a Warranty – Caveat Emptor or CYA? This engaging presentation unpacks the legal and practical aspects of warranties, helping builders and remodelers navigate their obligations while minimizing risk. Following NAHB’s Warranties for Builders and Remodelers framework, we’ll explore statutory and implied warranties, key differences between written and oral agreements, and the impact of the Magnuson-Moss Warranty Act. Learn how to avoid costly claims, leverage alternative dispute resolution, and ensure your warranties provide both protection and peace of mind.

Digital Site Box Training

Digital Site Box is a modern, secure alternative to traditional construction permit boxes, offering instant access, enhanced security, and streamlined compliance. In this training, we’ll cover key features, best practices, and how to maximize efficiency—let’s get started!

Understanding Construction Loans & Financing

In the class we will discuss the difference between different products, key requirements for loan approval and advice to help overcome common challenges.
